

STEAM VERSUS HORSE POWER.—This is Mark Twain's last: Bummer Jim was a good natured, illiterate, companionable vagabond, who made his living by devious, inscrutable ways in San Francisco for years, but he came east finally, and old friends got him a berth in Washington as a sort of general superintendent of the Capitol building. There was a steam engine in his department, and it was the joy of his life. He had never been officially connected with a steam engine before, and so he was justly proud of his new and distinguished position. He never threw away a chance to lure visitors, by various and specious pretenses, into his engine room, and then expatiate to them on the wonderful machine.

One day, a visitor said: "It is a pretty fine engine—no doubt about that. How many horse-power is it?" "Horse-power, your grandmother!" was the response; "it goes by steam!"

WOULDN'T BE LEFT A WIDOW.—A little man in the west of Maryland rushed to the Potomac river, not long ago, swearing that he would drown himself. When he had waded in to the depth of his waist, his wife, who had followed him, plunged in and seized him by the hair of the head, and then led him back till he had reached a place where the water was about two feet deep. Here, she pulled him over backward, and soured his head under water time after time. "Drown yourself, will you?" she said, and down he went; "leave me to take care of the children! (another plunge;) get drunk (another dip) and start for the river!—(Under again.) I'll teach you to try to leave me a widow!" And she did. After sousing him till he was nearly drowned, she led him home, a considerably subdued man, and he has never attempted to repeat the experiment of leaving his wife a widow.

A MATTER OF TASTE.—Gen. Meagher tells the following story: He was leading his men to the front, in one of the Seven Days' battles, along the wet and miry roads of Virginia, when an aide rode by and gave him the news that our army had carried a certain strategic point and captured several colors.

"Do you hear that, boys?" shouted Meagher; "our men have won the day and captured the enemy's colors!" "Just as I said that," tells Meagher, "a private, who was plugging along, out of one muddy hole into another, looked up to me and said: 'Ah, General! I'd rayther hev a pint of Dennis McGinnis' whisky than all the colors in the rainbow!'"

WORMS, MADAM.—A certain doctor, when called to see children, invariably prescribed for one and the same malady—worms. Summoned to the bedside of a little boy, he felt the patient's pulse, and looking gravely through his spectacles at the mother, said in a solemn tone, "Worms, madam, worms." To which the mother replied, "I tell ye doctor, that boy hain't got a single worm; he stambled over a stick of wood and has broken his leg, and I want you to set it, quick." The doctor was nonplussed for a moment, but he quickly added, in a still more solemn tone, "Worms, madam, I assure you—worms in the wood!"

A CELEBRITY.—A veritable story is told of a little girl who, attending Sunday school for the first time, was asked, "Who went into the lions' den?" The little one appearing puzzled, and not answering, the teacher commenced spelling to awaken the child's recollection—"D-a-n."

"I can tell now," broke in the three-year-old, all smiles; "it was Dan Rice!"

GOING VERY FAST!—Ours is an age of wonderful inventions. The minds of ingenious men have brought forth machinery thereby facilitating and making labor easy, and among the rest, the blacksmith has not been forgotten; for I. C. Singer has invented a machine which makes the process of bending heavy or light tires, bands, &c., an easy and pleasant task. This machine is gauged and numbered so as to show exactly where to place the rollers, in order to bend the desired diameter. Hundreds of references can be given. To get the machine, address, R. H. Singer, Ebensburg, Pa. The rights to sell this machine in a few States remain to be disposed of. None need apply for Pennsylvania, as the inventor is doing well selling machines, and intends holding it for that purpose.

N. B.—The place to get your horse well shod, wagon tire made and general blacksmithing done is at R. H. Singer's Shop, near Isaac Evans' tannery.

Wilson will send (free of charge) to all who desire it the prescription with the directions for making and using the simple remedy by which he was cured of a lung affection had that dread disease Consumption. His only object is to benefit the afflicted, and he hopes every sufferer will try this prescription, as it will cost them nothing, and may prove a blessing. Please address Rev. Edward A. Wilson, Williamsburg, Kings co., New York. July 18, 1867.

A CARD TO THE LADIES!—DR. DUPONCO'S GOLDEN PERIODICAL PILLS

FOR FEMALES. In correcting Irregularities, removing Obstructions of the Monthly Turns, from whatever cause, and always successful as a Preventive. It is now over thirty years since the above celebrated Pills were discovered by Dr. Duponco, of Paris, during which time they have been extensively and successfully used in most of the public institutions—as well as in private practice—of both hemispheres, with unparalleled success in every case, and it is only at the "urgent request" of the thousands of ladies who have used them that he is induced to make the Pills public for the alleviation of those suffering from any irregularity whatever, as well as to prevent an increase of family where health will not permit it. Females peculiarly situated, or those supposing themselves so, are cautioned against using these Pills while in that condition, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health—otherwise the Pills are recommended.

ONE BOX IS SUFFICIENT. Full and explicit directions accompany each box, which must be strictly followed, and all diseases peculiar to females may be speedily cured. Price \$1 per box; six boxes, \$5. A CARD.—WITNER'S BRIDGE,

Lancaster, Pa., July 30, 1866. MESSRS. EVANS AND WATSON, GENTLEMEN:—The small size No. 1 Salamander safe which I purchased from your agent, Mr. Adams Barr, in Lancaster City, on July 20th, 1866, has been subjected to a very severe test, which it withstood in a most satisfactory manner. This safe, containing all my books, together with valuable papers belonging to myself and come to my neighbors and friends, and representing a value of over Twenty Thousand Dollars, (\$20,000) was in my Mill which was destroyed on the night of the 27th of July, 1866, and passed through the fiery ordeal unscathed. The safe was on the second floor and fell to the basement of the Mill, and was subjected for six hours to an intense heat among the ruins, which was greatly increased by the combustion of a large quantity of grain confined within the brick walls. After the fire the safe was opened and the books and papers taken out in a state of perfect preservation, the paper not even being discolored. This fact was, however, to many bystanders a better recommendation of your safe than could be expressed in any other words from me. Yours Respectfully, [Jan 24] SAMUEL LANSCK.

A large assortment of the above quality of Fire and Thief Proof Safes always on hand and for sale at low rates as any other firm, at EVANS & WATSON'S, No. 16 South Fourth st., Philadelphia.
