Gallant Phil. Sheridan sent the following dispatch to the Convention of Boys in Blue at Philadelphia last week:

"FORT HARKER, KAN., Sept. 30, 1868. "phia :

"Say to the Boys in Blue that it is as essential to have a political victory this fall as it was to have an Appomattox in 1865, and that every man who loves his country should vote for Grant.

Judicial Disgrace.

the last resort of the citizen in search of his rights. Defeated or baffled in lower tribunals, he appeals to that august body for a rectification of wrong and a vindication of the justice of his cause. If the lower tribunal is incompetent, or if it has erred, or has become corrupt, he looks to this Court of last resort as a fountain of untainted justice, whose joy and duty it is to administer the law of the State without fear or favor. But if the fountain-head is impure, the administration of justice is at an end, and the law becomes a nullity. Hence the necessity that our Judges, and above all others, those of the Supreme Court, should stand aloof from all interference in mere political contests. As men, they necessarily have their sympathies, but as Judges, their own dignity, their solemn oath, and the safety of the State, each requires that they stand as god-like arbiters over the people. Whenever any political party has made, or even has appeared to make, a judicial decision a matter of accusation, it has instantly been assailed with attempting to drag the Judiciary into the meshes of party politics. But what shall be said when ermined Judges themselves trail their robes, not in the dust, but in filth, that they may serve the behests of party? The silence of shame would, in one aspect at least, be most fitting. But silence under such circumstances is itself a wrong. We desire not to bring railing accusations against the Supreme Judiciary of our Commonwealth, nor to take part in exciting against it those popular passions from which it should be so far removed; but that in the person of at least one of the Judges it has made itself an object of abhorrence, is clearly evident from the following facts :

On Monday, September 28th, in the space of three hundred micutes, seven hundred and twenty naturalization papers were issued, being at the rate of more than two a minute.

Many of these papers were issued when no Judges were sitting on the bench. The tinstaves of the Court administered the oaths. The Clerk of the Court, J. Ross Snowden. Esq., issued papers in blank under his signature and the seal of the Court, ready to be filled with the name of any person willing to perpetrate a fraud on the election laws of the State.

When a reporter of one of the Philadelphia papers was taking the names of the persons thus naturalized. Chief Justice Thompson approached, and after learning what he was doing, took the lists he had made from him and informed him he would not be allowed to make such lists. So extreme was this action, that it was afterwards reversed by Judge Sharswood.

A LAST WORD.

Republicans! The time for talking has nearly passed away, and the time for action arrived. On next Tuesday-three working days from date-you will be called upon to meet the enemy at the polls and engage in a conflict which may decide the destiny of our Republic for all time to come.

Are You Ready!

The issue joined between the contending forces is clear and well-defined. Shall the Republican party-the party which rescued the country from the horrors of Secession and successful Rebellion-the party which has given us a restored Union, purged of Human Slavery and purified as by fire-the party of Progress and of Christian Principles-shall this party retain control of the Government till its allotted task, now only half accomplished, shall have been completed? Or shall the so-called Democratic party-the party of Disloyalty and downright Treason-the party which in the South fought against the Union and in the North talked against it-the party which even now, both North and South, is threatening another Rebellion, thereby retarding the return of the country to absolute Peace and renewed Prosperity—be restored to power?

October --- November! The October election is of as much importance as the November election. Our State Officers, our Congressman, &c., are running on the same platform which supports Grant and Colfax. A victory for us in October is also a victory for our National standard-bearers, and will make the utter overthrow of the enemy in November an easy task. On the other hand, a defeat for us in October will be looked upon "To Gen. Charles H. T. Collis, Philadel- as an indication of a desire on the part of the people to return to Democratic rule and ruin, and will make a Republican victory in November a matter of doubt and uncertainty.

Get Out Every Vote!

Therefore, next Tuesday. Let there be no stragglers in the rear; but, with ranks well closed up, and taking the touch of the elbow, move forward in your majesty and might and register your determination The Supreme Court of Pennsylvania is to have GRANT and COLFAX, and a RE-STORED UNION, and PEACE, as against another Rebellion, and Disintegration, and Destruction.

Our State Officers.

GEN. JOHN F. HARTRANFT, our candidate for re-election to the office of Surveyor General, was a gallant soldier in the War for the Union. His qualifications for the office for which he is a candidate, and of which he is the present incumbent. are well and favorably known to the people of the State at large.

GEN. JACOB M. CAMPBELL, our candidate for re-election to the office of Surveyor General, was also a brave soldier. He is a resident of our own county, and our readers all know him to be a man worthy of their suffrages.

Gens. Hartranft and Campbell, through the exercise of care and economy in their respective offices, have saved thousands of dollars to the taxpayers of the State during their present administrations.

Congress. HON. DANIEL J. MORRELL, our candidate for Congress, needs no special mention from us. His votes and speeches in the XLth Congress have made for him National reputation, and have all been in strict accord with the advanced principles of Republicanism. He is an advocate of Protection to American Industry-is in favor of preserving inviolate the faith of the Republic with regard to the payment of the National Debt, and is opposed to the payment of the Rebel debt-is in favor of the benign measures of Reconstruction proposed by the Loyal Men of the Nation, and is opposed to unrepentant Treason-is in favor of EQUAL RIGHTS FOR ALL MEN, and is opposed to all Caste Privileges.

State Senator.

HON. HARRY WHITE, our candidate for re-election to the State Senate, has during a couple of terms in that body always given full and entire satisfaction to largely increased vote.

Assembly.

JAMES MORLEY, our candidate for Assembly, is well qualified to satisfactorily represent Cambria county in the lower house of the law-making body of the State. If elected, he will vote for a Republican

the Whole Ticket!

James Morley.

James Morley, our candidate for the Leg islature, was born in Cornwall, England. His mother was left a widow with ten small children when he was six years old. At the age of twelve, he went to work in the Cornish mines, and continued to labor as a miner in those works until he was nineteen. He then emigrated to America, and penetrated the then wilds of Michigan on Lake Superior. He was present at the discovery of the celebrated copper mines of that region, which have since become so great a source of revenue to this country. He inserted the blast that blew down the first large mass of native copper ever known to have been mined in the world.

After remaining there three years, he moved to Armstrong county, Penna., in 1848. There he became a contractor and superintendent of mines. In 1858, he came to Cambria county and assumed the superintendency of the mines of the Camoria Iron Co., which position he still occupies. He is extremely liberal in his views, both religious and political At his home, he is known to be the poor man's friend. Some six years ago, he organized a Miners' Association among the employees of the Cambria Iron Co., and this suspicion. The Cambria Co. Repubstill presides over it. During its existence, it has disbursed over \$20,000 for benevolent purposes.

schools for the benefit of the boys employed at the Works. Since their inauguration, these schools have had an average yearly attendance of over three hundred scholars.

For some years past, he has been an active and useful member of the School Board and Town Council of Johnstown. He is the President of the Conemaugh Park Association.

In every way, both through education and natural ability, is he well fitted to represent our county, and a man all workingmen, whether Republicans or Democrats, should be proud to support.

Maryland Ex-Rebels in Cambria County.

Republicans! look out for colonization frauds. It is reported that a horde of Maryland ex-rebels have been introduced into this Congressional district, as ten-day voters, to vote for the Democratic candidate for Congress, &c., and that a number of these are at this moment colonized in the rural districts of northern Cambria .-The election in Maryland does not come off till next month, and the idea is to vote these fellows here, and then run them back to their native State in time for their own election. Republicans! we beseech you to be on your guard against any such attempt. Spot the Maryland exrebels and all other spurious Democrats, and do not allow them to vote. For your all republicans, and I think if he could be guidance, we append a part of the election law having a bearing on this subject:

"In all cases where the name of the person nished by the commissioners and assessor, or his right to vote whether found thereon or not is objected to by any qualified citizen, it shall be the duty of the inspectors to examine such person on oath as to his qualifications, and if he claims to have resided within the State for one year or more, his oath shall be sufficient proof thereof, but he shall make proof by at least one competent witness, who shall be a qual fied elector, that he has resided within the district for more than ten days next immediately preceding said election, and shall also himself swear that his bona fide residence, in pursuance of his lawful calling, is within the district, and that he did not remove into said district for the puroose of voting therein.'

THE Democratic papers of this section appear to have nothing to say in behalf so devote their entire time and attention to abusing the Republican candidates .-Thus, while they have nothing especial to offer why Col. Linton should be elected to Congress, they denounce Mr. Morrell in unmeasured terms as incompetent and unfit to represent the district. The Altoona Vindicator has been particularly prolific of this sort of abuse. Possibily the secret of its virulence is contained in the fact that the Free Trade League has been distributing chunks of British gold through his constituents. He has comparatively the district to compass the defeat of Mr. no opposition, and will be re-elected by a Morrell, who is an ardent friend of Protection to American Industry. Freemen, be not deceived. Vote for Morrell and

[Communicated.] The Independent Candidate for Senate.

Since no respectable democrat would stand up as a candidate for Senator in this district, a gallant knight, in the person of W. K. Piper, has entered the lists and announces himself as an independent candidate. Since this announcement, inquiry is repeatedly made, what mad infatuation prompts this course? That no one may be deceived, a brief statement is proper for the public:

Mr. Piper was no candidate for nomination. No one thought of him as a Senator, and the community became curious to know the motive for his entering the field in this singular way. It seems, in times past, there were some law suits between a brother of Gen. White and Mr. Piper, with which Gen. White never had any concern. Geu. White, however, as executor of Hon. Thomas White, dec'd. has control of a judgment against W. K Piper in Cambria county, for several thousand dollars, and inasmuch as Piper's active demonstrations in the direction of being an independent candidate began about the time an execution was issued on this judgment, it is thought by many if this execution was stayed, or judgment satisfied, Mr. Piper would not strive for Senatorial honors. A reference to some matters in this connection strengthens lican convention was held July 12th .-Piper was a delegate to this convention. The convention declared unanimously for General White, and allowed him to select He was also the originator of the night his own conferees. Piper tried to oppose giving the right to select the conferees. and in answer to a question in open convention, said "he wanted it peremptorily understood that he was for General White first, last, and forever." The day of the convention in Ebensburg, Piper, unsolicited, took occasion to tell White of his friendship for him. Soon after this, an execution was issued on the above mentioned judgment In a day or two after this, the following letter, in the handwriting of Mr. Piper, and signed by John Montgomery, a former Sheriff of Indiana county, now a citizen of Mifflin county, and a horse dealer, was sent to a prominent Democrat of Indiana. The name of the Democrat to whom it is addressed is by request omitted:

"HOLLIDAYSBURG, July 16, 1868. DEAR SIR-I arrived here this evening in popping through Cambria county, I find the Republican party are not satisfied with White for the Senate. The Republicans held their Convention on Monday last. Piper, who is Chairman of the County Committee and also a member of the Convention from the west ward of Ebensburg, could have received the endorsement of the Convention for Senate, but as it was concluded by the Convention and by him (Piper) that White having the endorsement of the other two counties, he was virtually nominated-consequently no fight was made for Piper. But the Convention nominated him for the Legislature, which he most peremptorily declined-but contested the right of White to appoint his own conferees, but withdrew his opposition to give Morrell the right to appoint his. Now I think if Piper can be prevailed upon to come out as a volunteer candidate, and the democrats make no nomination, he can beat White in Cambria fourteen hundred votes-at least the Democrats tell me so, and some of the Republicans talk that way. * * * Piper is wide awake and a worker, and I have understood the Welsh will go for him strong, and they are got out he can beat him, and that is all I want. I aid not see Piper or would have mentioned it to him-our best policy is to get some man like him to come out, as claiming to vote is not found on the list fur- | think it is the only plan to beat him. I will spend two hundred dollars to accomplish it. "JOHN MONTGOMERY.

> "I wish this kept secret. It is perhaps needless to say that Piper not chairman of the Co. Committee, nor could he have received the endorsement of the convention for Senate. Nor was he nominated for Assembly

The Democratic conference met in Indiana August 7th, and adjourned without making any nomination until August 30 On the 14th August, Mr. Piper visited Indiana, and held an interview with a citizen of Indiana, who had indicated an intention of being an independent candidate, and with others. After his return home, he had correspondence with Indiana, and a certain "confidential" letter of the candidates of their own party, and from Mr. Piper to a citizen of Indiana has fallen into our hands. In this he says that he has been promised certain support and has determined to "try the experiment" of beating White, that he has 'found encouragement," &c.

The Democratic conference met Aug. 30th and adjourned without any nomination. After much feeling and manipulating, Mr. Piper announces himself The above facts are given for the information of the public.

THE tickets to be voted next Tuesday are in two sections, one headed "State, and the other "County." General Jacob M. Campbell.

The great mass of the American people take pleasure in honoring the man who by individual exertions has carved out his own success in life. That the path to veyor General, and that under Ge honorable preferment is open to the poor Campbell's energetic administration as well as the rich, is the pre-eminently work for which they were authorized distinguishing feature of "the Government | been nearly accomplished, and the by the people and for the people." The Republican candidate for Surveyor General affords another example to the youth | the expense of administering it after of the land, that they too by honesty, in- year will be less because the extraordin dustry and abstaining from excesses, may, by devoting their leisure hours to the improvement of their minds, become useful and honored citizens.

Coming up from the ranks of the working class Gen. Campbell's college was the Printing Office. A common school education with an apprenticeship "at case" and subsequent employment as a "jour printer," united with common sense and keen, discriminating judgment of human nature, constituted the capital with which he commenced life. Before entering the army in 1861, by economy and industry he had attained a fair measure of success in his private business and was then, and now is, esteemed as one of the most upright and public spirited citizens of the that Department as to make it a source town and county in which he resides. When the tocsin of war was sounded he not only buckled on his armor and entered Camp Curtin with the first company that pitched a tent on that now historic ground, but in addition showed his faith in the perpetuity and life of the Government by loaning it every available dollar of the savings of a lifetine.

By his individual exertions he afterwards raised a regiment, and on account of his well known ability as an executive and administrative officer he was assigned to one of the most dangerous and arduous fields of operation afforded by a long line of exposed border country. Men of ordinary capacity could command a regiment operating with the body of the army, but an entirely different kind of ability as well as the highest order of bravery was required to hold in check an almost utterly disloyal population-protect one of the important lines of railroads and keep at bay the rebel rangers and guerrillas, White, McNeil, Jenkins and Imboden. Subsequently General Campbell, on the sanguinary fields of Newmarket and Peidmont and the battles of Hunter's Lynchburg campaign, and in the valley under General Sheridan, displayed ability and bravery as a commander in the field. During a very considerable part of his long term of service he commanded a brigade and division, and for gallant conduct and superior skill exhibited during the terrible engagement at Peidmont he was brevetted a Brigadier General.

Always at his post attending to whatever duties were assigned him by the Governmen!-ever courteous in his demeanor towards his superior officers, and always kind and considerate to the officers and men under him, General Campbell's friends can point with a just pride to his military

In civil office at the head of the Surveyor General's Department, he has proven himself an honest, capable and energetic officer, and besides faithfuly discharging the ordinary duties of the department has brought up all the anfinished business of other administration, which will yield the State nearly a million and a half of dollars.

THE people should not lose sight of the importance of keeping an experienced officer at the head of the Land Department, for it is one of the most intricate connected with the State Government, and the rights of parties may be seriously affeeted by an inexperienced officer. Gen. Campbell is an experienced officer, and honest men of all parties bear testimony that they receive equal and exact justice at his hands.

TAXPAYERS and farmers interested in the promotion of agriculture, remember that through the energy and business qual fications of Gen. Jacob M. Campbell, a larger aggregate price per acre was obtained for the Agricultural College Land Scrip sold by this State than was obtained by the other States that sold about the same time. Democratic authority can be cited in substantiation of this fact.

THE OPPOSITION papers, knowing General Campbell's strength and that he has been the most efficient Surveyor General the State has had, for years have undertaken to break him down in the confidence of the people by the basest kind of misrepresentation. We, therefore, ask that this kind of electioneering be hurled back by the re-election of this tried public servant by an increased majority.

FAIR men of the Democratic party have borne testimony that connected drafts, copies of surveys, and all other official documents obtained from the Surveyor Generals Office, during the administration of Gen. Campbell, were made out with more neatness, correctness and promptness than

THE Democratic policy of equal taxation is to relevy the tax on real estate which John F. Hartranft was instrumental in having repealed. Hence every treeholder who votes for Hartranft, acts in self-defence against increased taxation.
