

OATS.—Oats are, of course, a most important article in stable management; and these, as everything a horse eats, ought to be of the finest quality. It may be that the weight of oats is not a matter of great consequence, nor, in fact, is it to eat or common horses; but it is quite the reverse to such as we are particular about as to stamina, wind and condition. Horses are generally fed by measure, not by weight, consequently in giving light oats, we actually rob the horse of his proper quantum of meal, giving him husks instead; and if we feed him by weight, going on the principle that a pound of feathers and a pound of lead are both a pound, the principle would be a very bad one as regards oats; for in that case, though the horse gets his pound weight, if he gets an undue portion of it in husks he is only filled with that which is no use to him; so in every way light oats are bad for choice horses.

READING FOR FARMERS' BOYS.—An intelligent and thrifty farmer says: "But for the co-operation of my boys I should have failed. I worked hard and so did they. The eldest is nearly twenty-one, and the other boys in the neighborhood, younger, have left their parents; mine have stuck to me when I most needed their services. I attribute this result to the fact that I have tried to make home pleasant to them. I have furnished them with attractive and useful reading; and, when night comes, and the day's labor is ended, instead of running with other boys to the railway station and adjoining towns, they gather around the great lamp, and become absorbed in their books and papers." Such is substantially the testimony of a farmer who has known how hard the struggle for a footing on free soil without capital is, and how valuable and comparatively cheap are the aids which good reading brings him.

AN ICE HOUSE EASILY MADE.—A correspondent of the Western Rural gives this bit of practical experience:—Last January I drew one load of sawdust and spread on the ground on the north side of my horse barn, then drew the ice (sawed in square cakes) and built up a square pile some eight by ten feet and seven or eight high, filling up the spaces between the cakes with pounded ice. I then set up scantling and built a board house around it two feet larger each way than the ice; then filled in saw dust around, and two or three feet on top, and covered with boards and slabs. We have used freely through the season, sold to picnic parties, given away to sick neighbors, and have plenty of ice yet.

CARE THE COWS.—One would think that any kind-hearted man, when he sees how grateful this operation is to a cow, would be willing to spend a few moments in carding her. It pays as well to clean a cow as a horse. All who have fairly tried it find great benefit from the operation. And not one farmer in a hundred makes it a practice to use the card or curry comb in the cow stable. We know stupid men who laugh at the idea as a mere notion of some fancy farmer. But, in point of fact, no cow can give the best results at the pail unless this matter is attended to, especially in winter.

L. L. LANGSTROTH'S PATENT MOVABLE COMB BEE HIVE!
Pronounced the best ever yet introduced in this country or State. Any person buying a family right can have their Bees transferred from an old box to a new one. In every instance in which this has been done the result has been entirely satisfactory, and the first take of honey has invariably paid all expenses, and frequently exceeded them. Proof of the superior merits of this invention will be found in the testimony of every man who has given it a trial, and among the number are the gentlemen named below, and their experience should induce every one interested in Bees to

BUY A FAMILY RIGHT!
Henry C. Kirkpatrick, of Carroll township, took 106 pounds of surplus honey from two hives, which he sold at 35 cents per pound.
Adam Deltrich, of Carroll township, took from two hives 160 pounds of surplus honey, which he sold at 35 cents per pound.
James Kirkpatrick, of Chest township, took 60 pounds of surplus honey from one hive.
Jacob Kirkpatrick, of Chest township, obtained 72 pounds of surplus honey from one hive, worth not less than \$21, and the right cost him only \$5.
Peter Campbell from one hive obtained 36 pounds of surplus honey at one time.
Quite a number of similar statements, authenticated by some of the best citizens of Cambria county, could be obtained in proof of the superior merits of Langstroth's Patent Movable Comb Bee Hive.
Persons wishing to purchase family rights should call on or address

GREAT INDUCEMENT FOR AN ENERGETIC MAN.—The undersigned offers for sale a valuable FARM of 156 acres, about 100 acres cleared, well fenced, and in excellent state of cultivation. The farm is located in Carroll tp., Cambria county, 12 miles north west of Carrolltown, a thriving village of about 400 inhabitants. Very convenient to churches, schools, stores, shops, saw and grist mills. The land lies well and produces good crops of wheat, rye, corn, oats, buckwheat and potatoes, also, clover, timothy and other grasses; is divided in fields of convenient size, with water in almost every field; good spring before the house; an abundance of coal and limestone on the place; also, a sufficiency of wood and timber for all purposes. The buildings are a good and newly new plank house, plastered, weather-boarded and painted; a shedded log barn, and a commodious wagon shed. This is really a very desirable farm, being so convenient to Carrolltown and in a good neighborhood, a healthy location, and cheap.—Price \$3,200; \$1,500 cash, balance in convenient payments. For particulars call on JAMES GUNNINGHAM, Carroll tp.
