

The Farmers' Department.

LOOK TO THE WEEDS.—Every good farmer knows that to insure satisfactory crops his land must be cultivated in the best manner...

To discern cucumbers of their tendency to rot, it is only necessary to soak them three hours in slightly salted water...

BALKY HORSES.—Many horsemen treat balky horses as follows: "Let me inform humane men and hostlers, and all who hold the rein, that the way to cure balky horses is to take them from the carriage and whipl them rapidly round till they are giddy..."

POTATOES.—RELIABLE KINDS.—To all of our readers who will plant potatoes in the spring, we can recommend Early Buckeye, Garnet, Chili and Peachblow, the two latter late. These are well established varieties...

AIR AND EXERCISE.—Dr Hall, of the Journal of Health, says in his consumptive friend: "You want air, not physic; you want pure air, not medicated air; you want nutrition, such as plenty of meat and bread will give, and they alone; physic has no nutriment; gasping for air and stimulants cannot cure you..."

TO PREVENT COWS KICKING.—The Southern Planter says: Take a chain, put it around the cow just back of the fore legs, and twist it. Every time she kicks add a turn or two with a stick; she will soon stand easy, and after a few trials will not need it at all...

POTATO BUGS.—This remedy is reported to be sure death to potato bugs: Take two parts Paris green to twenty parts ashes, and sprinkle over the vines through a fine sieve...
