

BELLEVILLE VS. STATE COLLEGE.

For a long time the rivalry, in base-ball, between the State College and Bellefonte clubs has been intense and the latter club has always been eager to cross bats with the College nine, regardless of the overwhelming defeats suffered in the past, and the game played on the 21st of May was no exception to the rule. The Bellefonte nine, composed of better all-around players, better batters (the old song), and accompanied by their Mascotte, arrived at two o'clock and proceeded to the grounds for preliminary practice. After some wrangling about the rules the game was called at 3:55, by Mr. James Hughes, with Bellefonte at the bat. They were retired in one, two, three order, Cassidy going out on a grounder to White, Clark flew to Mitchell and Kurtzenbauer struck out. Our boys in their half of the first, made one run on singles by McLean and Brew. The visitors added another goose egg to their score in the second and the example was followed by the home team. In the third, Bellefonte again failed to score, Hammil, Cassidy and Stewart going out at 1st, on grounders, the College piling up four runs on singles by Brew, Rose, White and Barclay. Clark scored on errors in the fourth, giving his club their first run, Kurtzenbauer scored for them in the sixth on a base hit, a stolen base, and two passed balls.

The fourth, fifth and sixth innings netted six runs for the collegians and Mitchell commenced to ease up allowing the visitors to score in the eighth and ninth. The latter part of the game was characterized by the superiority of the home team in handling the willow. The features of the game were the catching of Stewart, Jackson's great catch of Harris's, long fly into left field, and the pitching of Mitchell. The score was as follows :

*Excused for one error.

The young orator began his first great effort as follows: "Ladies and gentlemen, I-I-I feel-feel, ladies and gentlemen, I fee-feel-Oh, ladies and gentlemen if there were only a window in my heart you could see the feeling which agitates me!" A wiry urchin in the audience: "Wouldn't a pane in your stomach do?"
