

—Here is a process of logical reasoning, which for some time past has been occupying Hawk's attention: Man is an animal. I am a man. A calf is an animal. Therefore I am a calf. How is it Burdie?

—Owing to the interference of the board of trustees of Dickinson College, the foot-ball game—State College vs. Dickinson—which was billed for Nov. 10th, has been postponed until Wednesday afternoon, Nov. 23d.

—The following are the newly elected officers of the W. L. S.: President, Mock; Vice-President, Breneman; Recording Secretary, W. H. Walker; Critic, Waldron; Corresponding Secretary, Hickman; Treasurer, Jones.

—Was it not understood that the electric lights would continue till midnight, in case the storage batteries should prove deficient? If the lights are continued to be shut off at 11 o'clock, a demand for a rebate at the close of the term would not be out of order.

—We would like to call the attention of the college students to the paths that are being worn over the campus; as there has been no rain for some time the sod is very easily tramped out, and if it is not stopped our pride will soon resemble a railroad map.

—The new style of uniform is regarded as a great improvement. Although the change was received with displeasure when first suggested, is there one who would be willing to substitute the old for the new? Would not the cap also be improved by dispensing with the wreath and using only a neat, plain, silvered letter for the initials?

—The members of the Foot Ball team take a six mile run every morning before breakfast, and then come in and devour a leg of mutton, six hard boiled eggs, fourteen rounds of bread and five pounds of oat-meal a piece without mentioning such little things as butter, coffee, etc., etc. Already the hotel keepers are considering the advisability of petitioning the faculty to have the destructive game stopped at P. S. C.

—Our readers need not be surprised if THE FREE LANCE is turned into a matrimonial agency. Since the "Clover Boarding Club" has disbanded, most of our bachelor Professors are left without a boarding place, and therefore we have no doubt but that they will receive the inevitable unflinchingly, and advertise in the next issue for a wife that can cook.

—It was a wise action of the faculty to have the coming holiday vacation continue three weeks, as has been the custom heretofore. The deduction of one week, as announced by this year's catalogue, was not looked upon with approval by the students. But would it not be better to take the extra vacation week off the fall session rather than the winter session?

—We clip the following from the Philadelphia Press, of Tuesday morning, November 1st: "The students of the college have celebrated Hallow-E'en in a novel manner. The majority of the students have rooms in the main building, and each room is heated with steam. The cadets all secured tin horns and connected them with the radiators by means of rubber tubes. The horns were then fastened in the windows of the different rooms and at a given signal the steam was turned on. The horrible noise that ensued beggars description. People for miles around were aroused and alarmed. The racket was finally stopped by the janitor turning off the steam from the building." The above is partially true, but not to the extent as the correspondent of the Press pictured it.

—In accordance with the provisions of the Hatch Act, an Experimental Station was established here, by vote of the trustees, on June 30, 1887, with the following board of managers: H. P. Armsby, Ph. D., director, Wm. Frear, Ph. D., vice-director and chemist, Wm. A. Buckhout, M. S., botanist, Geo. C. Butz, B. S., horticulturist, Wm. C. Patterson, superintendent of farm, and H. C. Patterson, assistant chemist. It will be their duty to investigate such subjects as are
