The universal complaint of the students after returning to college was, that vacation was too short, and a regret that the earth was not covered with a mantle of the beautiful.

The new Cresson and Washington halls are nearing completion. They are situated on the fifth floor of the main college building, in the rear of each hall and cut off from it by large folding doors are the societies' reading rooms, which can be thrown into the main halls if the audience is so large as to make it uncomfortable in the halls proper. The walls are being hung with the best selections of paper, and the halls, the pride of the members, will be fitted up in the most modern and improved style.
