

With the advent of Spring has come not only base-ball, but tennis. Quite a number of games have been played already and a great interest has been awakened among the students. Prof. McKee's court was the first one put into condition, but all of the others were soon prepared, and it is safe to say that this popular sport is now in full swing at P. S. C.

Most of the goods ordered by the students of E. K. Tryon & Co., have arrived and certainly speak well for the firm. The blazers and caps in college colors, are splendid samples of workmanship and make a very fine appearance. Indeed every one has reason to feel satisfied with the *work* of the firm.

Gilbert A. Beaver attended the conference of college men with the two Y. M. C. A. international secretaries, held at Albany.

The death of Mrs. Olds was a shock to the community. She had been suffering for a long time, and although competent doctors did all in their power, there was no relief. A lady of refinement and kindly social qualities, she leaves a great blank in the family and community. Mr. Olds and family have our deepest sympathy.

---

PERSONALS.
