

The class of '92 has decided to give the fall Hop on November 27th and have selected the following committee of arrangements—Pond, Rumberger, McKee, Loyd and Bush.

The foot-ball committee has decided to play all practice and match games on the new athletic field. For this purpose the grounds were recently marked off and the goal posts put up. With the exception that after rain the field is slightly soft, and that there are a few small, loose stones which have not yet been cleared off, the new ground makes an excellent place to play.

The new Athletic grounds which have been under way since last July will not be entirely ready for use this year. The quarter mile running track enclosing a foot ball and base ball ground is being pushed as rapidly as is possible. The cinders are now being put in place. Seed has been sown on the field proper, and after being thoroughly rolled it will be left until next fall. By not being used this season we shall have one of the finest Athletic grounds in the State.

It has been for several years the custom of the Y. M. C. A. to give a reception to its friends, but especially to the new students. This is designed to make the new men feel more at home by mak-

ing them better acquainted with the college men and especially to identify those who wish to be so known with the Y. M. C. A. This year, as usual, the reception, which was given in the society halls on Friday evening, September 11, was an unqualified success. The halls were crowded to their utmost to contain the friends of the Association. After an evening spent in pleasant conversation, interspersed with music by the college orchestra, an invitation was extended to all to betake themselves to the 4th floor. Here the drawing room had been turned into a dining hall where bounteous refreshments were served. It was by far the most successful of the receptions thus far given by our college Y. M. C. A. and the members deserve great credit for the care and labor they took to make it a success.
