with Sanitarium methods enable us to *prescribe* with great precision, which is an important consideration when we consider the value of human life and health. For it is sel-

dom *what* the physician and the surgeon do but *how* they do it, that determine results. Baths of all kind, Massage, Electricity, the Movement cure, are the chief Sanitarium methods.

is the great representative system. Walter's Sanitarium first introduced it to the notice of the profession, and for eighteen years has continuously practised it with great success. It trains its own operators and teaches the **ART** to scores of young women and men, enabling them thus to quadruple their salaries. Its graduates often earn \$1,000 to \$3,000 per year. We would like to correspond with young women especially, with a view to their introduction to our

school. Terms very moderate.

In the treatment of all forms of digestive and nervous ailments our methods have had an unusual success. In surgical cases and diseases of the female organism we are especially equipped. Send for circular and illustrated catalogue.
