

ADVERTISEMENTS.

TRAUTWINE'S POCKET-BOOK.

Without doubt it has proved itself to be the most useful hand book in the language, for the engineering profession.—*Engineering and Mining Journal*, August 25th, 1888.

JOHN WILEY & SONS, NEW YORK. | **F. & F. N. SPON, LONDON.**

SOMETIMES the folks know as much as the people; other times the people know as much as the folks. Now we are not particular as to whether you style us the former or latter, nor do we claim to know it all. You may liken us, if you please, unto many horses starting out in a race, all fine animals; they look alike and apparently step alike. The folks and the people all say, "Hard to tell which will win;" but before the race is fairly begun what is the result? Some of the horses are distanced, and the question arises, why? People well up in business will tell you that habit, skill, ability and condition did their part in bringing about this result. 'Tis even so with the Lloyd laundry and shirt manufacturing company. After many years experience in their business, they stand to-day without a peer. They are the winners in all races where style, quality and beauty of workmanship take a part. Like the many horses, competition may make a showing, but when it comes to getting there, they are not in it. The folks and the people will find us at our place of business, Nos. 114 and 116 West Willow street, Williamsport, Pa., from 7 o'clock a. m., until 8 p. m. Give us a call. Offices and agencies in every city, town or hamlet.

THE E. S. GREELY & CO.

GENERAL ELECTRICAL SUPPLIES.
5 and 7 DEY ST., NEW YORK.
