**TO WYCKOFF, SEAMANS & BENEDICT:  
REMINGTON STANDARD TYPEWRITER.**

After using the Remington typewriters in the Vermont Methodist Seminary for more than a year I am glad to bear testimony to the excellent results attained. Our instruments are kept in the academic; and pupils who desire are assigned hours for practice. Quite a number have availed themselves of the opportunity. I have noticed, first, a care for correct spelling and punctuation which we had not been able to secure otherwise. I have seen an unusual attention to the structure of sentences. The rhetoric of composition seems to stand out more clearly before the pupil on a printed than on a written page; and as the manipulation of the machine soon becomes mechanical, the writer devotes much attention, even in copying articles, to the structure and finish of the sentences. I fully believe that the typewriter put in the hands of all our pupils would prove a valuable aid to their education

E. A. BISHOP, Principal.
