

should state the case to the colleges whose delegates were not present, and that they should send their votes by mail. The matter was decided in favor of State, so we will have the meeting here on the 19th of May. State offers first-class inducements and the meeting cannot fail to be pleasant and profitable to all who attend. The convention was a muddle all the way through and we hope to have a more business-like meeting at our next.

—The catalogues for '93-'94 are out, and are quite an improvement on the former ones. They are not long and broad as formerly, but are thicker. The subject matter is more conveniently arranged, and the schedules of studies, together with the tabulated arrangement are a great improvement on former issues. The number of students at the time the catalogue went to print was 318. Of this number 182 are in the College Department, 34 in the Agricultural Department, and 102 in the Preparatory Department. In the College there are 6 post graduates, 24 Seniors, 34 Juniors, 49 Sophomores, 63 Freshmen and 6 pursuing special courses. The number of instructors is 40.

In addition to the Mining Engineering course, two new courses in pure science have been added to the curriculum, one in higher mathematics and one in physics. They are intended for specialists and for those who wish to teach. Another new feature is a summer school for students in the three lower classes of the technical courses. It is to consist of 100 hours work in the field, shop, laboratory and mine, and will prove to be a good plan. The standard of admission has been raised and in all courses the mathematical studies have been pushed forward one term, so as to give opportunity for three terms of calculus instead of two, as was formerly the case. There have also been a number of changes in the Junior and Senior schedules of the technical courses.

—The College Glee and Banjo Clubs left here March 29th for their spring tour, visiting the cities of Williamsport, Beech Creek, Clearfield, Tyrone, Altoona and Bellefonte. The trip was a financial as well as a musical success. At most places the houses were poor, yet every body that heard them was well pleased, which promises much for next year. The clubs were well organized and managed. With one exception these are the first clubs sent from the College, and we should be proud of the record they have made. The program as given on the tour was practically the same as given in their opening concert in the College chapel. The clubs comprised the following men:

GLEE CLUB.

<i>1st Tenors.</i>	<i>2d Tenors.</i>
J Edwin Quigley,	Edward H. Harris,
Walter Houseman,	Walter B. Waite,
J. Frank Campbell,	Harry A. Kuhn.
<i>1st Bass,</i>	<i>2d Bass.</i>
W. Claud Thompson,	Budd Gray,
Roy A. McDonald,	William Banks.
Chas. H. Atherton,	H. H. Barnhart.

BANJO CLUB.

Mandolin, Chas. Atherton.
 Bangeaurine, Budd Gray,
 Solo Banjo. E. H. Harris,
 Guitars, Windsor Hawley, Carrol McAfee.
