

—The Scientific Association meets on the first and third Tuesdays of each month. It is composed of professors, who are active members; and instructors and six students of the Senior class who are associate members. Scientific subjects of interest are discussed at each meeting.

On Tuesday, May 1, the subject of house sanitation was discussed, very interesting papers being read by Prof. Foss and Treas. Hamilton.

—Dr. Geo. W. Atherton returned on Tuesday, May 1st, from an extended tour of the western and southern part of the United States and Mexico where he has been for his health. He visited many universities and colleges and reports a pleasant trip. His return was gladly welcomed by all, a large crowd of students meeting him at the station and giving him a rousing cheer when he stepped from the train, a manifestation which was repeated in the chapel on the following morning.

—The second handicap meeting was held on the Beaver athletic field, May 5. The weather was unfavorable for the sports, as it rained part of the afternoon, and prevented many from viewing them. The different events were as follows:

J. White '94 broke the college record for 440 yd. dash by 2 1-5 seconds.

Harder '95 in running high jump equaled the college record.

Greenland '96 won a team cap in 2 mile bicycle.

On the whole the boys did surprisingly good work and it shows the comparison between this and previous years' teams.

We wish to correct a mistake made in last issue concerning the silver cups. The cup for throwing the hammer and putting the shot was presented by Prof. Willard, and the one given by Prof. Emery was for the mile and half mile races.
