

again we might excel if the proper encouragement is given to committee and manager financially; to members of the athletic team in training.

THE base ball team has not as whole reached that state of brilliant performances which the many ardent admirers of the individual members had reason to expect from it this season. While it is true that under the circumstances it did well on its Eastern trip the "circumstances" was mainly the lack of team work conducive to the best ball playing.

We believe that no one is dissatisfied with the choosing and the placing of the players but it is inability of the players to play well together which has caused the enthusiasm of the home "rooters" to wane.

The few inter-class and inter-course games which have been already played have developed sufficient material for a rattling second team. A good, strong, second team thoroughly imbued with the worthy ambition of making the first team "play ball" could not fail to produce a wonderful improvement ere the annual game before our commencement visitors is played.

PERSONALS.

'79. Rev. William K. Foster delivered a sermon in the chapel last month.

'93. Daniel W. Gross is employed in the civil engineering department of Penna. Steel Co., of Steelton, Pa.

Ex-'94. John T. Chambers, Jr., is with the Fort Pitt Engraving Co., at Pittsburg.
