

BUCKNELL VS. STATE.

The most exciting, as well as the most favorable game of the season was that with Bucknell on Beaver Field, June 5. Both teams played well, although Shortell's pitching did not come up to expectations, while the fielding on both sides was slightly faulty. Without doubt the star play of the game was Miller's catch of a long drive to left field. Spiesman and Bechtel also executed a fine double play. Bechtel, Brandt and Nesbit played a fine game, Nesbit's pitching being particularly strong when hits meant runs and defeat. The score:

EXCHANGES.

The *Red and Blue* for May is a special "Fiction Number," containing some excellent stories. "An Artistic Crime" is undoubtedly the best of all. "Ted Hollister" is pretty and bright, and fully repays one for the reading. Then there are several short sketches, "The Young Archaeologist," "A Pennsylvania Tale," and "Nantucket Jottings," which are admirably written. The verse, too, is excellent, while the essay, "Lying as a Fine Art," is about as humorous as we have ever read.

One of the prettiest college romances we have ever read comes to us under the title "College Colors," in the April *Minnesota Magazine*.

The *Hamilton Literary Magazine* brings us another humorous sketch, "How Shall He Ask Her?" It is of vital importance to any one who contemplates matrimony. "How the Well was Shot," is deserving of mention.
