CROSS COUNTRY RUNS.

REALIZING the fact that the actual training of the track team is begun so late in the season that many of the runners do not make such a creditable showing as they would with earlier practice, a series consisting of three cross country runs of one, two, and five miles respectively has been arranged by the track team. These races will begin the latter part of October, the exact time to be announced later. As an inducement to have as many compete as possible, Dr. Newton has promised a silver cup to that person winning the greatest number of points in the series of runs.

Do not hesitate to enter the races even though you do not think that you will win the cup. You cannot fail to derive some benefit from the practice. The results will have considerable weight in the choosing of track team men next spring. As a special inducement to the new students, "The Free Lance" offers one year's subscription gratis to all new men who are among the five candidates making the greatest number of points in the series. All candidates will please hand their names to Captain Norman on or before the 20th inst.
