

Prices printed in the papers do not tell the whole story. Our prices represent the most your money can buy. Our **MEN'S SUITS AT \$7.50**—must be seen to appreciate. The superior merits of our Suits to others at \$7.50 are first the Fabric—because it will be as we represent it to be—all wool. Tailoring—because the "Vitals" (the insides) are tailored with as much care and thought as the outside. Style—because they are just as the standard of Spring '98, dictates. Fit—because we take as much pains as the best merchant tailor to measure you properly. Will others do as much? Can they do as much.
