"Why in the world doesn't a man like Jones get down to business methods when he can buy an American Typewriter for \$10? Does he think I'm running a puzzle department?"

The American Ten-Dollar Typewriter is as well made as the highest priced machines, but more simple. It has stood the test of time. Four years without a competitor. 25,000 in use. Catalogue and samples of work free if you mention this magazine and address
