

Prices printed in the papers do not tell the whole story. Our prices represent the most your money can buy. Our MEN'S SUITS AT \$7.50—must be seen to appreciated. The superior merits of our Suits to others at \$7.50 are first the Fabric—because it will be as we represent it to be—all wool. Tailoring—because the "Vitals" (the insides) are tailored with as much care and thought as the outside. Style—because they are just as the standard of Spring '98, dictates. Fit—because we take as much pains as the best merchant tailor to measure you properly. Will others do as much? Can they do as much.

## The Only Machine.

The only machine ever invented which will add all the columns at one time by the simple touching of keys, and nothing more.

The only machine ever invented which multiplies and divides by automatic keys.

Absolute accuracy and twice as quick as the best accountant.

No lever to operate. Nothing to do but touch the keys. Simple, light, compact, durable.

A bookkeeper's or engineer's time is too valuable to be spent on mental computing when he can do the work on the Comptometer in much less time and with absolute accuracy.
