

graduate work at the University of Illinois and at Cornell, and has had an extensive experience in many branches of biological research. He has been variously employed as a teacher, an original investigator, a scientific writer, a public speaker on scientific subjects, and in duties relative to membership in numerous scientific societies of the naturalistic order.

Mr. W. N. Golden is the new physical director. He is a man with an excellent reputation, both as an all around athlete, and as an instructor in athletics. He has had a wide experience both in college athletics and with athletic clubs. The Purdue University foot-ball team, was trained by Mr. Golden, and Page, Prinstein, and Ewry, of jumping fame, have all been under his training. At present Mr. Golden's attention is occupied with the foot-ball team, and his popularity with the boys, together with their excellent form after only a few weeks of training, seems to augur well for his success at State.

Messrs. Churchill and Schoffstall are now assistants in the Chemistry department. The former comes from Chelsea, Mass., and is a graduate of Harvard, while the latter is a State graduate of the class of '00.

R. A. Niven of New York, is employed as an assistant in the shops. While in New York, he was employed by several companies, with whom he made an excellent reputation as an engineer.

Mr. Pingree, of Denmark, Me., is an assistant at the Experiment Station. He is a graduate of the Massachusetts Agricultural College.

L. L. Ansart, a graduate of the College in '98, is acting as assistant in mathematics.

Professor and Mrs. Stoek spent their vacation at the College. Professor Stoek was formerly assistant professor of Engineering and Metallurgy at State. He is now located
