

Y. M. C. A. RECEPTION.

On Friday evening, September 14, the College Y. M. C. A. gave a reception in the Armory to the new students. Interesting addresses were made by Hon. James A. Beaver and Prof. Benjamin Gill. Refreshments were served, and a social good time was enjoyed.

FRESHMAN—SOPHOMORE RUSH.

On the evening of September 14th, the Freshmen held their first class meeting, and immediately after, sallied forth from the Main Building to make themselves heard upon the campus. The Sophomores were waiting for them, and in accordance with the old custom, "rushed" them with vigor and determination. The Freshmen, however, were numerous, and although they could not withstand the trained rushes of the Sophomores, yet they hung to the battle with bull-dog tenacity, rallying their separated forces again and again. The Sophomores, after making several successful rushes, retired to the Main Building in good order, followed by the Freshmen, who skirmished on the way. Though the Freshmen met with some success in these minor encounters, they were outclassed in the rush proper.

THE MONTH.

Friday evening, October 4th, the Mining Engineers met in the Engineering Building. Upon the recommendation of Prof. Ihlseng, the Society of Mining Engineers was re-organized. Pollock, '01, was chosen President, and McKelvey, '02, Secretary. The society is to meet every two weeks.

At a recent meeting of the Scientific Association, Prof. Leete read a paper entitled, "Concerning Satellites," and Prof. Reber, one on "The Manufacture of Liquid Air."

Dr. G. G. Pond, who has been away for some time recuperating his health, has returned to the College, but will
