

G. O. Gray and F. Monahan, The Benzene and Toluene Industry; A. S. O'Neill, Coke By-Products; C. W. Rogers, Petroleum Products; P. H. Dale and D. B. Tuholski, Bacteria of Milk; Miss H. D. Musser, Variations of Avian Structures; Miss E. C. S. Snyder, Benzene and Toluene Analytical Methods; G. H. Deike and E. N. Zern, On Coal Mining; C. S. Freeman, On Preparation of Copper Ores; F. P. Dodge and J. J. Markel, Fermentation Tests of Milk and Quantative Bacterial Analysis; H. C. Neel, Study of Chemical Properties of Paper Wood; F. H. Taylor, A Comparative Study of Locke and Rousseau; Wasson, Education in Centre County.

—The officers of the Electrical Engineering Society for the spring session are: President, Yeakle; Vice Presidents, Wert, McLarn and J. D. Elder; Secretary, Godschalk; Examining Committee, Prof. Jackson, Mr. Wood, Clendenia and Kyle.

Nearly all the Seniors and Juniors taking electrical engineering have joined the American Institute of Electrical Engineers. The institute is designed to aid young engineers in their work and to give them official standing as a practical engineer.

LITERARY NOTES.

“Books are the strong tinctures of experience. They are to be taken carefully, drop by drop, not carelessly gulped down by the bottle. Therefore, if you want to get the best out of books, spend a quarter of an hour in reading and three-quarters of an hour in thinking over what you have read.”

RICHARD LE GALLIENNE.
