

After Commencement a Life Work

There is no Profession that offers larger opportunities to young men of integrity and ability than that of Life Assurance. It is one of the few Professions that is not overcrowded—and that is not likely to be within the life of the present generation.

But it is essential to success, that a connection be made with just the right company—a Company that doesn't have to be introduced—but that introduces and gives standing to its representatives.

The Equitable Life Assurance Society

Is not only the strongest Life Assurance Company in the world—but it is the most liberally advertised, the best known, the most highly esteemed by men of standing, the one that in every way is most helpful to its representatives.

This great Society, realizing the value of trained men of character and ability to represent it, has inaugurated a special Summer School for the training of young men in the profession of Life Assurance. Only a limited number from each College can be accommodated. It is an opportunity of rare importance. Good positions always await those who are qualified.
