

Arnold, Stapler and Plank, but the last may hurdle instead. In regards to the 220 yards dash, nothing can as yet be said. The 100 yard dash will be with Newton and Hornbaker. The former promises to be a $10\frac{1}{8}$ man, and the latter also holds the hurdle records at State now. From his appearance this spring, his old record will again be broken. It is $15\frac{4}{8}$ flat, and as the World's Intercollegiate record is only $15\frac{3}{8}$, all sincerely hope that it may be surpassed. E. H. Armsby is in good shape and hurdling well. Saunders is out for the pole vault and high jump, and in him is one of our very efficient men. The broad jump candidates are Fawkes, Andrews, Tawney and Whitworth. The last named holds the record at 22 feet, $4\frac{5}{8}$ inches. He will also run the high hurdles. The weight men are as yet wholly unselected, but Fawkes is probable for the shot put, while Wm. Dean is working steadily on the shot and hammer. The meets scheduled for this year are as follows:

Dickinson at State, May 7th.

W, and J. at Shenley Park, Pittsburg, May 28th.

The Indians at Carlisle, May 14th.

Lehigh (cancelled).

Indians at State, commencement.

On Friday morning, April 22d, the Relay Team left for Philadelphia. They entered the race, Arnold running first and coming in third place. Plank ran next, coming in fifth. Oniel, who followed, being accidentally spiked by a J. H. U. man at the start, having his big toe split, and the end taken off the second, was even then able to hold his position and make up part of that lost by his predecessor. J. Kaiser ran last, but as he was so far back that it would have been impossible to have gained any lost positions simply ran to hold his own. The team ran well considering that there were two new men and that Oniel had been spiked, while some of the competing teams have run for three years, and been running indoor races all winter.

Nevertheless, when the team gets together, with a few weeks
