

What About the Future?

When college days are over life has just begun—

The selection of a profession is a matter of vital importance—

Life Assurance

has three distinctive advantages to commend it to progressive men as a life work—

It is a new profession—not over-crowded—

It is a clean, fascinating profession—

It is very profitable

But of course it is essential that a connection be made with the right company. The Equitable Life Assurance Society—the strongest life organization in the world—has inaugurated

A Summer School

for the training of young men in the profession of life assurance

Write for particulars as to free scholarships
