## FIRST ANNUAL FARMERS' INSTITUTE.

There is being held this week in the Old Chapel a meeting of the First Annual Farmers' Normal Institute of Pennsylvania. The fundamental purpose of the Institute is to bring together all the speakers who will address Farmers' Institutes this winter for the discussion of means of placing the East on a competing basis with the West in agricultural pursuits. Mr. R. D. Barclay, '05, of the Executive committee of the Pennsylvania Bee Keepers' Association, will deliver an address on "Bee Keeping," at 11 o'clock Friday morning. Sessions will also be held in the Court House, at Bellefonte. The programs here given are taken from

the *Monthly Bulletin* of the Division of Zoology.

Wednesday Afternoon, Oct. 12, 1904.

Howard G. McGowan, Geiger's Mills, Pa., Chairman.

Hon Jason Sexton, "The County Chairman"

H. W. Northup, "Institute Committees."

Geo. A. Woodside, "Advertisement of Institutes."

(Five minute discussions open to all,

## POLITICAL CENSUS.

If "coming events cast their shadows" as the adage goes, the coming Presidential election will be a walk-over for Roosevelt and Fairbanks, if the sentiments of State College voters can be as an indication. Under the direction of the President of the student Republican club a canvass has been made of the voting students in this College, and up to date only one Democrat has declared himself. The only reason he could give for his preference for Democracy was "that the Republicans had been in long enough." It is to be doubted if others of the same mind here have any more substantial reasons for voting the same way. The voting contingent is almost solid Republican and will go to their homes in a body in November to whoop things up for "Teddy." Some plans are being made by the Republican club to make the campaign at the College a little more lively.

## ELECTIVE FRENCH.

Prof. I. L. Foster has organized an elective course in French for Sophomores and upper-class men. The work will include commercial forms, business letters, etc., and will be of great practical value to all students taking it.
