THE DRUG STORE

MEEK BROS.

Two of the leading Canadian universities, McGill and Toronto, intend to send representatives to the University of Pennsylvania's Eleventh Annual Relay Carnival, to take place on Franklin Field on April 29. Present indications shows that there will be over one thousand athletes in the Carnival.

The Faculty of Delaware College, situated at Newark, Delaware, recently took a decided stand against cribbing in examinations. As a result two students, who were detected in unfair dealings during the first term examinations, were suspended.

Fifteen colored students of the University of Michigan are endeavoring to organize a Greek letter fraternity. Should their efforts be successful, it will be the only organization of its kind in the world composed of colored students.

At the Imperial University of Japan there is more attention given to athletics than is given at Yale or Harvard. As to college yells and songs, it is quite different,—they are seldom or never heard; and, too, college colors are seldom seen at that institution.

Purdue University has been materially assisting the United States Bureau of Forestry in investigating the effect of preservatives on the strength of timber. The results of about two thousand experiments have been worked up by the students of the institution.

President George Edward Reed, of Dickinson college, on Monday announced that, by the will of the late Senator A. E. Patton, of Curwensville, the college will receive \$10,000. He also said that this sum made \$120,000 which the college has secured since the loss of Denny hall by fire last March. Mr. Patton was a trustee of the college and gave Dickinson the present gymnasium.

A new 10 H. P. Prescott Turbine, a gift to the College from the Prescott company, and built specially for testing purposes, has just been set up in the Engineering Building. Another 40 H. P. machine of the same type is being made ready for a test after which it will be returned to the company. The turbine is built on the same general principles as the De Laval, and the 10 H. P. machine is surely an appreciable addition to the Engineering Laboratory.

## It will Pay You

To buy your Dry Goods Notions, Shoes, Groceries, Etc., of us. Our reputation stands back of the goods, which are better, brighter and snappier than ever before.

## Holmes & Co.

College Avenue: State College, Pa.
