### Appropriation Committees Coming.

The Appropriation Committees of both the Senate and the Assembly will in all probability visit State College, either the latter part of this week or the beginning of next. In past years it has been the custom for committees to come separately, but this year it is understood that Dr. Atherton is endeavoring to make arrangements to have them come in a body. A list of the visiting members will be posted so that students from the various counties may have an opportunity to arrange in advance to see or entertain their representatives.
