Annapolis, Md., April 1.

This was a "foolish" day here in more than one sense of the word. Perhaps the most prominent feature of all was the drubbing which Penn State gave the Navy's baseball nine. McIlveen was in the box for State, and had the Middies completely at his mercy throughout the game. The Navy's only run was a "mistake" which occurred in the eighth inning. A fashionable assemblage of over 2000, including many Government officials, witnessed this contest, and it is generally admitted that Penn State's all around playing here to-day is the best seen for several seasons. Annapolis tried all three of her pitchers and State's batters liked them all.

Eleven bases on balls were handed out by the Navy's twirlers.
