Y. M. C. Notes.

The University of Pennsylvania Christian Association has undertaken to secure \$50,000 for the erection of a building for the University Christian Settlement, in one of the factory districts of Philadelphia. Already \$30,000 has been secured of which amount Mr. Andrew Carnegie has contributed \$7,500. This undertaking is the largest yet attempted by any of the student Associations for work outside the college.

Mr. John R. Mott has just returned to this country from extended visits to Oxford and Cambridge Universities. Of Mr. Mott's visits in the English Universities "The Student Movement" says Mr. Mott has been much blessed in his work at Cambridge. His meetings have been the most largely attended gatherings ever held in the University. Mr. Mott leaves again in April to attend the Jubilee Convention of the World's Alliance of the Y. M. C. A.'s at Paris.

A feature of the growth of the Association movement among our colleges is the need that is being felt for separate quarters for the work of the Association. Among the Associations of the state of Missouri four have already provided themselves with buildings. Missouri State University has already secured one-half of the \$50,000 desired for a new building. The Iowa State College Association is soon to complete its building while a number of other colleges have started funds for buildings.
