Inspection.

The regular annual inspection of the battalion was held Friday morning at ten o'clock. The inspecting was done by Major Gresham of the United States Cavalry. The battalion presented an excellent appearance and although the inspection was not so rigid as in several previous years the rating will no doubt be higher. The marching was excellent as were all the maneuvers and Captain Lawton expressed himself as being well pleased with the drill and inspection in general. Various movements were executed on the drill field above Dr. Gill's residence after the inspection and later an exhibition in skirmishing and charging was given on the front campus. Advance guard work was also performed by one of the companies. A number of visitors were present and viewed the inspection and work of the battalion.

E. E. Society.

The Electrical Engineering Society enjoyed its last monthly "Feed" of the year last Saturday evening. The affair took on the nature of a farewell reception to the Seniors. Toasts appropriate to the occasion were given. About a dozen letters from different 1904 Electricals were read and proved exceedingly interesting.

Base Ball.

The members of the California Normal Baseball team arrived here last Friday afternoon. In the evening the fellows at the Track House organized an impromptu stag dance for the visitors.

The game started with the visitors at the bat, but it took only enough time for a one, two, three order to retire the side. As usual State started her batting part of the first inning with a tremendous slaughter on the opposing pitcher's delivering. In short order the first three batters occupied bases. McIlveen then put finishing touches to the inning by knocking out a three bagger, scoring three runs. Throughout the game all State men played with spirit consistent with the revenge for the defeat of week before last. Our boys hit so hard that in the fifth inning McCleary was forced to retire from the box and Abbot, who pitched such excellent ball against us in the first game, took his place. The latter seemed to pitch better ball but at times he was somewhat wild.

In the field the Normal boys played good ball with the exception that the outfielders left several grounders get past them.

Owing to the nearness of the eastern trip Haverstick and McIlveen each pitched half the game as they were scheduled to pitch Monday and Tuesday against Villanova and Princeton respectively.

NOTES OF THE DIAMOND

California Normal's catcher is quite a hand at coaching. His "ginger" added considerable life to the game. At times the game was a regular circus.

The last game of the season with Bloomsburg should prove an exciting one as Bloomsburg is playing excellent ball this year.

California has a large number of "six-footers" on her team.

A younger brother of our short-stop, Cree, plays a good game at second for the Normalities.

Rip Van Winkle.

On Saturday evening last Mr. George Kiernan, actor and impersonator gave a recital of the play "Rip Van Winkle," which helped so much to endear the late Joe Jefferson, to the hearts of American theatre-goers. Mr. Kiernan was, during the lifetime of Jefferson, his personal friend, and learned at first hand all the peculiarities of Jefferson's interpretation of Rip Van Winkle's character. At times the pathos of the story was deep and true to life; at others the humor expressed by voice and manner was irresistible; and altogether it was an entertainment of high order, enjoyable from start to finish.
