

New Instructors.

Continued from page 5.

Pennsylvania Railroad, where he remained until the fall of 1899. He returned to the sea as Third Assistant Engineer on the S. S. "St. Paul," following this by land service as boiler and engine designer, for the New York Ship Building Company. Since Sept. 1901 he had charge in Machine Design and Mechanical Drawing at Pratt Institute, Brooklyn, N. Y. and brought it to a high standard. He has also taught advanced engineering subjects the last few years in the summer school at Lehigh University.

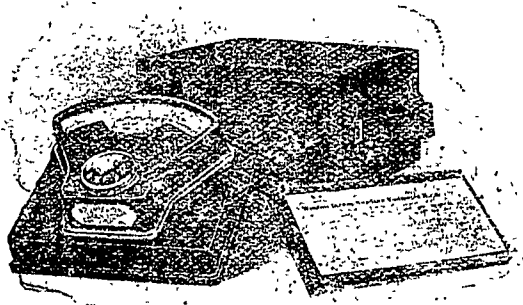

Mr. M. B. Benedict, M. E. Instructor in Mechanical Engineering took his degree at Lehigh University in 1899. He was an apprentice for two years following his graduation with the Pennsylvania Railroad at the Altoona shops. He went from there to the employ of the Carnegie Steel Company in the draughting room, where he remained until 1904. Last year he spent at the Virginia Military Institute, Lexington, Va., instructing Engineering subjects. Mr. Benedict also comes highly recommended.

Notice

The College Orchestra will hold a "stag" dance in the Armory next Saturday evening from 8:15 to 11 o'clock. The Sophomore class has voluntarily promised not to disturb Freshmen attending the dance and it is hoped that a large number of the new men will turn out. A small admission fee will be charged in order to raise money for several much needed instruments and some new music.
