

E. E. Society.

The Electrical Engineering Society held a meeting in room 20 of the Engineering building, Wednesday evening of last week. The following officers for the present term were elected; President, Kline, '06; Vice President, Landes, '06; Secretary, Foltz, '06; Treasurer, Zarfos, '06; Marshall, Perry, '06.

Plans for the present year's work were discussed and it was decided to carry on the work practically the same as was taken up last year. Subjects which are too high in theory to be comprehended by the Juniors will not be used. Executive and social committees were appointed and it was decided to have "feeds" at least once a month. At the meeting last night several interesting papers were read. The Junior Electrical Engineers have been invited to membership.

A Review of the styles for Fall and Winter is spread before you at our store. They are representative of the Smartest Tailoring Skill obtainable in America and bear the closest scrutiny from the standpoints of Quality, Workmanship, Style and Fit, revealing the remarkable development of the Clothing Craft in recent years. Students of fashion have candidly admitted the growing supremacy of ready-to-wear clothes and admit that the passing of the merchant tailor is only a question of a short time. Our guarantee accompanies everything offered for sale in our modern establishment. :: :: :: :: :: :: :: ::
