## State 73—Geneva 0.

The Geneva College eleven met the Varsity on Beaver Field last Saturday, and played a plucky game but were badly outclassed, State rolling up a total of 73 points with comparative ease. The "White and Blue" line-up was materially weakened through the absence of Captain Yeckley, Centre-rush Dunn, and Half-back McIlveen, while in the second half almost an entire eleven of substitutes was employed. The subs, however, played a fast article of ball adding 44 points to the 29 which had been scored in the first period. State's men played well together, and the coaches feel encouraged over the showing made, as the Dickinson battle comes next Saturday. All of State's backs distinguished themselves by long runs, but the most brilliant effort of the day was made by Quarter-back Henry, who, early in the second half received the ball on the kick-off and ran the entire length of the field for a touch-down. Henry also made several other splendid runs, hurdling tacklers in grand style, while Barr, Campbell, Leathers, and Burns ran the ball for their end positions for long gains. At the tackles, Gotwals, Wray, McWilliams, and Putnam tore through the opposition for sure advances, guards, Kunkle, Cyphers, Leonard and Shaw performed finely, while Moorhead at quarter put his usual ginger and snap into the battle. Sterling work was done by the six backs, McGee, Behee, Fawkes, Miller, Partridge and Montz. The line-up:—

## Mrs. Carnegie's Appreciation.

It will be remembered that at the dedication of the Library last year the student body presented an artistic silver cup to Mrs. Carnegie. The episode was one of the most interesting events of that interesting occasion.

Mrs. Carnegie made such an impression upon the entire College community at the time that, when the Juniors brought out their La Vie, the most natural thing in the world was to dedicate it to Mrs. Carnegie. It contained a fine portrait of her and was dedicated in the language which she used at the opening of the Library.

A copy of this La Vie, specially bound in an attractive manner, was sent to her at Skibo Castle, Scotland, and, in acknowledging the receipt of it, she says:

"I thank you most sincerely for the beautiful copy of 'La Vie' which you have so very kindly sent me. The State College has showered so much kindness upon me that I feel quite overwhelmed."

It is pleasant to know that what was a pleasure to the donors is appreciated by the donee, and it is well for the entire College community to know it.

## State Calendar.

A State Calendar will soon be placed on sale. It will be somewhat similar to last years in size and shape but will have a different cover design which is wholly original. Pictures of the different athletic teams with a selection of well chosen college views will be features of the calendar. It is being compiled by several students and will make a splendid Christmas gift.

It has been customary throughout the Western and Middle States to pick at the end of each football season a representative eleven from the college teams. It seems strange that our Pennsylvanian football critics have never attempted to carry out such a good idea, especially since the Keystone State enjoys each season a better general average of college football than any other State in the Union. Pennsylvania is the proud possessor of no less than two dozen flourishing colleges, each of which maintains annually a high class record on the gridiron.

Here is the list of these 24 institutions:—University of Pennsylvania, Lafayette, Lehigh, Pennsylvania State College, Carlisle Indian School, Bucknell, Ursinus, Dickinson, Gettysburg, Swarthmore, Haverford, Franklin and Marshall, Penna. Military College, Allegheny, Geneva, Westminster, Grove City, Washington and Jefferson, Western University of Pennsylvania, Lebanon Valley, Albright, Susquehanna, Villanova, and Pittsburg College.

In picking an "All-Pennsylvania" team, the territory to be covered is reasonable and a good opportunity is offered of seeing most of the teams perform, so that this task gives much more satisfactory results than the selecting of an "All-American" aggregation.
