

Library.

The Library has secured the Patent Office Publications of Great Britain and Canada. These will be found in the Engineering Alcove as soon as received, and should be of interest to the students in technical work. An effort is being made to secure complete sets.

Auction catalogues from the principal firms are on file in the Librarian's office. The catalogues of the Anderson Auction Co., The Merwin-Clayton Sales Co., of New York; of Stan V. Henkles, of Philadelphia; and of C. V. Libbie and Co., of Boston are regularly received. Bids will be executed by the Library, and notes made for any one interested in special subjects.

A subject index of Theses has been placed in the Librarian's Room, to be used in connection with the file of Theses. Subjects are grouped by Courses, so that one may readily review all the thesis subjects in any one or all departments. For example, if one be interested in the subjects treated by students in the Courses in Chemistry, all such subjects will be found grouped from the Class of 1861 to the present.

List of donors during the past week includes among others: William F. White, '87; Fred A. R. Hoffeditz, '05; General James A. Beaver. Houghton Mifflin and Co., Michigan Academy of Sciences, Boston Museum of Fine Arts, Koniglich Preussichen Akademie der Wissenschaften, Cassella Color Co., Canadian Patent Office, Patent Office of Great Britain.

A select list of Periodicals wanted. Any volumes bound or unbound will be gratefully received.

Nation. Vol. 1-13, 32-34, 36, 41, 44-48, 51, 55-58, 60-70, 73, 74.

Eligibility Rules.

The Faculty Athletic Committees of Princeton, Harvard and Yale have made public the set of athletic eligibility rules, which they adopted lately. The new rules are as follows:

1. No man shall be eligible to compete in intercollegiate athletics unless he shall have completed a full year's work at the university for which he is competing and shall have passed the examinations satisfactory for advance with his class.
2. No man shall be eligible who has a degree equivalent to that required to enter the senior class at Princeton, Yale or Harvard.
3. No special student shall be eligible. Exception to this rule; a special student may be eligible in case he is vouched for by the dean, first as having satisfied entrance requirements equivalent to those required of freshmen; second as having completed a full year's work and as having passed a satisfactory examination upon that year's work; third, as taking work during his year of competition equivalent to that required of those who are candidates for a degree.

4. No man shall compete as a member of any university team for more than three years.

5. These rules shall go into effect September, 1906, with the understanding, however, that rule (4) is not to apply to men now in college.
