

The Finger of Fashion

oints unerringly at our Spring display of ready-to-wear garments, expressing the mode of Spring in its most felicitous development.

The Clothing Makers who contribute to this showing, demonstrate their pre-eminence in the craft of tailoring.

The primness, grace and ease that mark these garments must appeal powerfully to every man who treasures the refinement of dress.

Approved stylish clothes are always a great satisfaction. It is a certain distinctiveness aside from mere style that makes our clothes sought by discriminating dressers. In a variety of models assuring you a perfect fitting garment, that is adapted to your figure.
