Base Ball.

By reason of its most peculiar conglomeration of rain, snow, sleet, sore limbs and throwing wings, and paradoxical scores, State's recent Southern trip will always be a memorable event in the base ball annals of "the White and Blue."

Everything considered this Southern journey may be looked upon as a successful venture, for notwithstanding the miserable weather, enough base ball was played to develop the fact that some grand new players are included in the Varsity line-up. Ross at first base, Mahaffey at second, Mitinger in the box, and Conklin and Sankey as substitutes all displayed the most unquestionable ability, and never has any State team displayed more determined snap and girger in the face of discouragement. The stuff is there all right enough to make a great nine for "Old State" this season, although lots of good, stiff training will be needed for the next month.

March 31 at Annapolis. The score:

Indian Agreement

An agreement has been made with the Carlisle Indians providing for a foot ball game in Williamsport on the second Saturday in October of the next four years. Along with this has been made a similar contract with the Indian base ball management for the Commencement game for four years beginning in 1907. "Pop" Golden has also been authorized to raise the guarantee to retain the Indian track team of the same institution as a commencement attraction for this year.

State—Dickinson Debate.

The inter-collegiate debate with Dickinson College is to be held tonight at Huston Hall in Philadelphia. State's debaters are Groff, '07, Braucher, '08, Wentzel, '03, and Pennock, '09, alternate. The team goes to Philadelphia with the intention of putting up a good fight, and of winning the debate if they possibly can. They have been working hard for a long time in order to be able to make a good showing for State.

Chemist's Trip.

The Senior and Junior Chemists left on their annual inspection trip on Saturday March 24th under Messrs Churchill and Rentschler, who were later joined by Dr. Pond at the close of college. The itinerary included Pittsburg, Franklin, Buffalo, and Niagara Falls, particular attention being given to the mills and factories of the first named. The party left Buffalo for College on Wednesday, April 4. It was a very instructive trip as all the place visited were prominent concerns.

Notice to Alumni.

The Pennsylvania State College Association of Eastern Pennsylvania will hold its Third Annual Smoker at the University Club, 1510 Walnut St., Philadelphia, on Friday evening, April 13, 1906, at eight o'clock.

It is the earnest wish of the Committee that this year's meeting shall be the largest gathering of "State" men ever held in this city. There are about 150 "State" men in Philadelphia and vicinity, and we would like to see every one present. The assessment for this meeting is made very low, so that no one can advance pecuniary reasons for his absence.

The Association has no dues nor assessments other than for the annual meeting, and membership is open to all former students of the college, whether graduates or not.

The Committee would request that you make a personal effort to be present yourself and to bring any other "State" men whom you know, whether we have been able to reach them with an invitation or not.

The remarkable development of the College, both as regards numbers and efficiency should be a source of gratification to all "State" men. Can't we get together once a year to keep alive our love and enthusiasm for our Alma Mater and to renew the friendship and recollections of our college days?
