

State Collegian.

Vol. II, No. 33.

STATE COLLEGE, PA., JUNE 13, 1906.

Price Ten Cents.

Baccalaureate Services.

The Baccalaureate services were held in the Auditorium at 10.30 o'clock Sunday morning.

The under-classes formed outside of the Auditorium and marched to their seats after the Faculty had taken their usual places on the platform.

At a signal from Miss Atherton at the piano, the choir in the vestibule sang a Processional and marched to

leaves for Ireland next week, but his and Spiritual" and by means of effective illustrations from Nature and Life he made the application that growth is necessary to all life; otherwise comes death.

The address was delivered in a straight-forward convincing way that carried with it power, and was very appropriate to the Commencement season. Dr. Patterson, we understand,

The Class of 1906.

The class which to-day goes out from State enjoys the distinction of being the second largest ever graduated from the institution. The class of 1903 numbered 72 men, that of 1904, 79 men, of 1905, 93 men. The present class started in the fall with 227 men, but as usual many were lost all along the way, so that only 87 men will be given their diplomas to-day.

1906 BASE BALL TEAM

Bottom row - Kilmer, Cree, McIlveen, capt; Thompson, Ross.

the platform followed immediately by the members of the Senior class in caps and gowns, who took the front seats.

The service was unusually impressive throughout, the singing by the choir and the violin duet being especially good. Rev. William Patterson D. D. of Philadelphia delivered the sermon and was accorded the closest attention by all his hearers. His theme was "Growth: Physical, Intellectual

words will long remain in the minds and hearts of State College men.

The service closed with singing "Lead Kindly Light" and the benediction.

A special committee of the Junior class at Yale reported that it could find no honor system in vogue in other colleges which would accord with the general sentiment of the class. However, the class declared itself in favor of honesty in class room work.

As in previous years, the great majority will graduate as technically trained engineers, the Electrical Department recommending 26, the Civil Department 18, the Mechanical Department 15, and the Mining Department 12. Besides these, 13 will graduate in Chemistry, two in Agriculture, two in General Science, and one in Biology

The members of the class came
