

The Wrestling Match.

The wrestling match, which will take place to-morrow night, between the Sophomores and the Freshmen, promises to be one of the closest contests seen here in many years. The Freshmen have some of the best kind of material from which to choose, and their men are showing good spirit by turning out for the trials in large numbers.

Although lacking the advantage of experience, which their opponents have acquired, the Freshmen are showing great skill on the mat, and are making evident that there will be no "easy thing" to-morrow night. Twenty-four Freshmen are out trying for the light weight match—that shows considerable spirit of the proper kind. The Sophomores do not have so many out practicing; but the greater part of those have had more or less experience, and expect to show the new men some of the finer points of the art. There is no doubt but that this match will be worth watching, and that the winning team will retain a hearty respect for their less fortunate opponents. It would be foolish to predict victory for either side. Let the best team win!

The Agricultural Society.

The Agricultural Society held its first meeting of the year on Monday, Sept. 17. This meeting was devoted to a discussion of the plans for the year. Dr. Armsby welcomed the new men into the society, and spoke encouragingly of the work which had been already accomplished. Meetings will be held every two weeks, and various agricultural problems will be discussed. The officers of the society are: Groff, '07, president; Ross, '08, vice president; White, '07, secretary; Goodling, '07, treasurer; Prof. Mairs, corresponding secretary.

Trials for the Collegian Board.

The election of F. K. Brewster to the managership of the Collegian leaves a vacancy on the editorial staff, which must be filled. The work outlined for this vacant position makes it necessary to issue a call for candidates. Juniors, Sophomores and Freshmen are eligible, and the one or ones showing the best all-around ability in three trials will be chosen.

The editors assure each man of a fair chance. Favoritism, particularly in a case like this, means sure disaster and brings discredit upon those who have charge of the enterprise.

Willingness to work, ability to obtain news items, style of composition and general make-up of the trial manuscripts will be the factors governing the board in its choice. Let every man turn out and do his best!

Thingumbob—"Huh! It isn't the 'dont's' that worry clubmen; it's the dues."
