

Properest of the Proper

is the "Varsity" raincoat pictured in the accompanying sketch. Its vigorous style and expressive tailoring will single the wearer out from the multitude.

Study the following lines and graceful curves of the "Varsity," its faithful conformity to the current mode.

Single breasted, made in several lengths, with fly front, or button through, it typifies that masterly skill for which Hart Schaffner & Marx are justly renowned.

Made lined throughout or one-quarter lined, in a variety of the stylish fabrics. It may as properly be donned for street wear in sunshiny weather, or over evening dress, or for any other service that you may exact of a stylishly-fashioned overcoat, as for rainy weather.

For those who may prefer it we have the loose fitting box back raincoats in all the wanted cloths.
