

### COLLEGE NOTES.

H. H. Haverstick, ex-'07, the popular pitcher on State's Varsity last spring, is teaching mathematics and physics at Betts Academy, Stamford, Conn. "Sticks" intends to return to State next fall to resume his work and promises to bring several of his students along with him.

Prof. I. L. Foster, F. O. Leitzell, '07, and Raymond Swenk, '07, represented the local chapter of Phi Delta Theta at the national convention held last week at Washington, D. C.

Prof. F. E. Foss, Professor of Civil Engineering last year and Miss H. A. Nichols, Instructor in French were visitors at the College last week.

An effort is being made by the Greater Pittsburg Club to arrange a dance during the Christmas holidays. The committee is working in conjunction with several alumni in an endeavor to secure the hall of the Conservatory of Music on Dithridge street, Pittsburg.

The Lancaster County Club held a short meeting last week, but no business of importance was transacted.

The Clearfield County Club at a recent meeting decided to hold a banquet and dance in Clearfield during the Christmas holidays.

#### The Metallurgical Trip.

During Thanksgiving week, the Senior and Junior Miners and a few Mechanicals took an inspection trip to Johnstown and Pittsburg, under

the direction of Mr. Linville. The Rolling Mill Mine of the Cambria Steel Co. was visited on Monday. After a ride of five miles in mine cars pulled by a mule, the working face was reached, and the operations of cutting and loading coal were seen. Tuesday and Wednesday were spent in the Johnstown and Franklin works of the Cambria Steel Co.

After establishing Pittsburg headquarters at the Fort Pitt Hotel on Wednesday evening, all work was suspended till Friday morning in order to allow the party to attend the State—W. U. P. game. The Pittsburg plant of Jones and Laughlin formed a valuable field for Friday's visit. Upon the invitation of Mr. Leete, our former Registrar, who holds a similar position in the Carnegie Technical School, the party was conducted through that institution. The courtesy of the officials of the various concerns visited made the trip a very successful and profitable one.

All of our late graduate members are now well started on their careers in the wide, cold world. Yet we sometimes believe they are sorry their college days are over.—Exchange.

The "wide, cold" world might be worse; we may get into a crowded, hot place next time.

Bowdoin College has made an important change in the student regulations by the dropping of the old-time "cut" system and the appointment of a secretary with power to receive and act on all excuses for absence from class or chapel.
