

COLLEGE NOTES.

Prof. and Mrs. Jackson entertained the senior electricals on Saturday evening. During the evening Mrs. Jackson was presented by her guests with a silver tray as a token of appreciation for the interest she has taken in them. All report having had a most enjoyable time.

Mr. A. S. Biesecker, '04, an old football star, addressed the Electrical Engineering society on the growing use of electrical machinery in mines, and told of his work along that line with the D. L. & W. Co.

Among the clubs which held meetings last week were the Lycoming and Schuylkill county and the Bethlehem Prep clubs.

"David Garrick" was presented by the Thespians in 1901. It is worth listening to, and is bound to please everybody.

The Camera club is certainly a progressive organization.

The stags are rather few and far between.

Junior: "Why don't you try to imitate George Washington?"

Senior: "Because, if the impression got out that I couldn't tell a lie some people would consider my usefulness at an end."

Baseball Work Progressing.

This afternoon all baseball candidates, not already on the present varsity squad, are requested to report at the Armory at 1:30 sharp for some final stiff practice. If any of these candidates display sufficient ability they will be placed on the varsity squad.

After the regular varsity practice on Friday and Saturday afternoons of this week, the present squad, numbering forty, will be cut down to twenty players. Only a month remains previous to the southern trip, and it is imperative that the number of men be now reduced to a more convenient size. The innovation of sliding practice has recently been introduced into the regular baseball work.

Dr. Fernow to Speak.

At the meeting of the Natural History club in 206 Main, Wednesday Feb. 27, Dr. B. E. Fernow will speak on "Forestry As Related to Natural History."

All men interested in this subject are invited to the meeting.

"I want to get some bird seed," said the "buttermilk."

"Don't try to rube me," cried the "short horn." "Birds grow from eggs, not seeds."

The Medico-Chirurgical College of Philadelphia

Department of Medicine Carefully graded course of four sessions of eight months each. Thoroughly practical instruction; Free Quizzes; Limited Ward Glasses; Clinical Conferences; Particular attention to laboratory work, ward work and bedside teaching. Largest and finest clinical amphitheatre in the world.

Department of Dentistry Offers superior advantages to students. Abundance of material for practical work in the Dental Infirmary. College clinics present splendid opportunities for practical study of general and oral surgery. Dental students accorded same college privileges as medical students. Quizzing conducted by the Professors free of charge.

Department of Pharmacy is also an integral part of the institution. Address the Dean of the department in which you are interested for an illustrated catalogue, describing courses in full and containing information as to fees, etc.
