A Harvard Man,

whom we placed with a large publishing house a year ago has just been advanced to the managership of an important department. He's only one of the 1500 college men placed in satisfactory positions last year. In each of our offices is a department exclusively for college men. Each man's case receives personal attention and our employment experts find for him the position in business, in teaching or in technical work which he is best fitted to fill. Write us to-day and we will tell you what we can do for you.

Open Letters.

The STATE COLLEGIAN invites letters, but the publication of a communication does not necessarily imply the endorsement of the sentiments contained therein. As a guarantee of good faith, the writer's name must be signed, but will not be printed if so desired.

A letter has been received from a graduate of the college in regard to the question of erecting bleachers on Beaver field. The letter is published in full, because we believe that it will be of interest to the majority of the students, and because it seems to sum up the present situation in the bleacher question.

As I recall, at present, the estimate was in the neighborhood of seven hundred dollars, of which the Athletic Association was to pay four hundred dollars and the Trustees of the college the remainder. The Trustees either refused to give that amount or did not act on the matter—so nothing further was done.

An additional reason why the bleacher question was dropped at that time was that the committee, after having a talk with Coach Golden, inferred that the location of the athletic field would be changed within a very few years, and that, therefore, money used to construct bleachers would be thrown away. In view of this fact it was deemed wise to do nothing more in the way of either temporary or permanent bleachers.

The above mentioned bleachers were most substantial and would accommodate more persons than the present grandstand. There is real need of more seating space for spectators on Beaver Field, but it would be well to look into the matter, and to see if a change of location of the athletic field is probable in the near future.

Plans of the bleachers as drawn up by the committee and any other information they obtained should be in the file of the Secretary of the Athletic Association.

Have You Seen

**The READYFILL
FOUNTAIN PEN**

"The pen that fills itself."

No more ink spotted fingers.

The "Readyfill" writes when you are ready. No need to shake it to start the flow of ink.

A patented split feed makes dripping impossible.

Every college man should have a reliable fountain pen.
