Association Notes.

The Y. M. C. A. formally opened its year's work with the reception to new students given in the armory last Friday night. The object of this reception is to acquaint the new men with the various branches of student activity in which they are invited to participate.

The association is greatly handicapped by the absence, at this the opening of the year, of the General Secretary, Mr. F. E. Wilber, who has been detained at his home by a painful accident and will not be able to resume his duties as secretary before October first at the earliest.

The various committees, however, recognize that the burden of the work has passed to them, and their activities show their determination to get the work well started in spite of his absence.

The Membership and Bible Study committees have both planned extensive campaigns and the determination with which the men are going to work is indicative of good results.

Next Sunday evening will be given over to a Bible Study rally, and as soon as the enrollment is complete, books will be secured and groups organized. It is the intention of the association to continue the group plan which has proven so successful in past years. The courses taken up will be explained in the pamphlets given out by the Bible Study committee. All who wish to do so are invited to join one of these Bible Study groups.

The association will conduct a lecture and entertainment course during the present college year, the details of which will be given in a later issue. For the present it will be sufficient to say that the course as planned is the best ever offered by the association.

Outside speakers will be secured from time to time through the college year to address the meetings on

subjects of interest to college students.

The time and place of meetings will be announced weekly in the Collegian calendar.

The association desires to have it clearly understood that the organization is in no sense exclusive. It is composed of and conducted by students, for their mutual benefit. No one need await a personal invitation to join the association or any of its activities. The rooms are for your benefit and at your disposal and the General Secretary or any of the active members of the association will be glad to be of any possible service to you

A Tragic Death

The friends of "Phil" Partridge, '07, were shocked to hear of his sudden death near Old Orchard, Me., on Aug. 15. He and his fiancée were hastening to a home at Old Orchard and were struck by a fast train at a crossing on the Boston and Maine Railroad. When he saw that an accident was inevitable he endeavored to save his fair companion, and although she was severely injured, her life was spared. His last act was one of heroism.

Partridge graduated from the Mechanical Engineering course last June and had bright prospects for a successful future. He was prominent socially and a member of the Sigma Chi fraternity. On the football field he was a consistent worker and was awarded the "S". His activities in connection with the Thespians were especially noteworthy. For two years he took the leading part in the presentations of that organization with exceptional success. In the death of Philips Payne Partridge State has lost a brilliant son and a loyal alumnus.

1911

The Freshman class organized on Friday of last week, electing the following officers: Pres. W. D. Barnett; Vice-Pres. B. C. Ticknor; Sec. Wm. Wright; Treas. W. S. Glenn.
