

ALUMNI.

The following State graduates hold positions with the H. C. Frick Coke company:

Walter E. Housman, '97, is assistant mechanical engineer, with headquarters at Scottdale, Pa.

J. W. Campbell, '98, is division engineer with headquarters at Leckrone, Pa.

William L. Affelder, '99, is superintendent of the Redstone plant of 446 ovens at Brownfield, Pa.

Charles S. Freeman, '03, is a draftsman in the mechanical department at Scottdale, Pa.

Winfield H. McDowell, '05, has charge of a construction corps, with headquarters at Uniontown, Pa.

Thomas G. Estep, '05, is in the mechanical department at Scottdale, Pa.

Short Course Men.

Within the last week seventy-one students have entered in the short courses of the School of Agriculture. These men include representatives from nearly every county in the state. The largest numbers come from Chester and Bradford counties.

The subjects of instruction cover a wide range but are grouped under the heads of Agriculture and Dairy Husbandry. The majority of the students are enrolled in the former courses. The term of all courses will be twelve weeks.

The Berzelius Chemical Society is very fortunate this month in having for their speaker Dr. F. J. Pond of Stevens Institute, Hoboken, N. J., who is a brother of Dr. G. G. Pond. His talk will be on "Methods of Gas Manufacture." The lecture will be fully illustrated by lantern slides, and will take place in the lecture room of the Chemistry building at 7 o'clock on Friday night. Any who feel interested in the subject are invited to attend.

A PENNY
for your
thoughts

Quarter off
on Overcoats

On account of the warmness of the weather our Men's Overcoats have not worked as rapidly as they should have and to adjust our stock quickly we make a clean cut of 25 per cent. You may select any overcoat in the store and deduct $\frac{1}{4}$ from the price marked. The line is very strong. The season's newest fabrics tailored by American best clothing producers into the most Distinctive Stylish garments you have ever seen. There's not an overcoat want we can not fill.

Right now when you will want an overcoat—makes reduction especially attractive. $\frac{1}{4}$ off our usual low prices is a chance that can you afford to miss?
