

# State Collegian.

Vol. IV, No 14.

STATE COLLEGE, PA., JANUARY 16, 1908.

Price Five Cents

## Basketball.

Penn State opened her basketball season last Saturday evening by defeating Wyoming Seminary by the score of 40 to 11. Although Capt. DuBarry and his men clearly outplayed their opponents, lack of effective team work was very much in evidence in the White and Blue five. The visitors were not as strong as in former years but they played with plenty of fight and pluck. "Jimmy" Funston led his teammates with his neat floor work and shot some pretty goals.

STATE 40 WYOMING SEMINARY 11  
 Herman ..... forward..... Hankey  
 Ross, Reed..... forward..... Muir  
 Waha ..... center..... Liebensberger  
 DuBarry..... guard..... Eyrich  
 Funston..... guard..... Blackey  
 Goals from field—Hankey 1; Muir 4; Heiman, 4; Ross, 4; Reed, 1; Waha, 6; Funston 4. Goals from fouls—Hankey, 1; Herman, 2. Referee—Prof Tomhave, University of Minn. Timers—Rogers, Wyoming, and Harding, State, Halves—20 and 15 minutes.

The problem of suitable coaching for State's basketball team has been taken up and discussed by the committee on coaches and they find that the present financial condition of our athletics will not allow the securing of a regular coach. Arrangements, however, have been made to have the services of "Cal" Moorhead at different intervals of the season and this former State star will be here during the week previous to February 12, to round the team into shape for the Eastern trip.

The approved schedule is as follows:

- Jan. 17, N. Y. Univ. at State.
- Feb. 1, open.
- Feb. 3, Johnstown Collegians, at Johnstown.
- Feb. 6, W. U. P., at State.
- Feb. 12, F. and M., at Lancaster.
- Feb. 13, Del. college, at Newark, Del.

Feb. 14, U. of P., at Philadelphia.  
 Feb. 15, Swarthmore, at Swarthmore.

Feb. 18, Geo. Wash., at State.  
 Feb. 20, Swarthmore, at State.  
 Feb. 26, Fordham, at N. Y.  
 Feb. 27, Manhattan, at N. Y.  
 Feb. 29, Lehigh, at South Bethlehem.

March 6, Del. College at State.

## Three Excellent Lectures.

Three most interesting and profitable talks were given on Monday and Tuesday before the student body by J. A. L. Waddell, a consulting engineer of Kansas City. The speaker is a graduate of Renssler Polytechnic Institute, and was for some years connected with the Imperial University of Japan. The first talk related to the ethics of the engineer, the second to the construction of the immense railroad bridge at New Westminster, B C., of which Mr. Waddell had charge, and the third took up the use of nickel steel as bridge material. Lack of space prevents enlargement on the subjects mentioned.

## Successor to Prof Butz.

Ralph L. Warts has been appointed head of the Department of Horticulture as successor to the late Prof. Butz. Prof. Warts was graduated in Agriculture from State in 1890, has since been prominent in his chosen work and has been connected with state and government departments. He will assume his duties here on March 1.

The Women's Literary Club will meet on the evening of Jan. 21 with Mrs. Pond.

## Landscape Architect's Report.

The report of Mr. C. N. Lowrie, of New York City, who prepared the outline for the development of the college campus, has been received. It is a beautiful, small quarto pamphlet, with lithographs of the outline of the plan, a topographical map and a fine colored perspective, together with cuts of the library and engineering buildings as they are to be and a glimpse or two of campus views. The letter press is a fine specimen of printing and gives a detailed description of the plan of the campus and of future development along the lines projected.

This work was done, with the consent of the Board of Trustees, under the general direction and at the expense of James Lyon Hamill, Esq., of the class of '80, who is also a member of the Board of Trustees. Mr. Hamill's benefactions to the college have been numerous and of a practical sort. He has never done anything, however, which will be productive of better results than this most important and interesting work which has just been completed.

The general plan having been adopted by the Board of Trustees, is being already put into execution, by the grading and preparation of the new athletic grounds. Some of the temporary buildings, now in course of erection, and those which are contemplated have been planned so as not to interfere in any way with the permanent structures which are to follow.

The plan, as will be noticed, includes a great recitation hall upon the site of the present botanical building, which will be in keeping
