б

THE STATE COLLEGIAN

Athletic Association. After а thorough organization has been effected and a team developed, an effort may be made to incorporate the club with the Association. where it rightly belongs. It was decided to have seven men on the team, the weights being: under 115 pounds, from 115 to 125 pounds; from 125 to 135 pounds, from 135 to 145 pounds, from 145 to 158 pounds, from 158 to 175 pounds, and over 175 pounds. Four pounds is then allowed each contestant in a match when weighing in. These weights are such that any man in college has a cnance to try for the teams, regardless of his size. For the pres ent the candidates for positions on the team meet in the Armory at 7:30 p.m. on Mondays, Wednesdays, and Saturdays. Everybody is urged to come out. Learn to wrestle whether you know anything about it or not.

The club decided to wrestle under regu'ar intercollegiate rules, having each weight wrestle one fall only, and time to be limited to 9 minutes. This will force each man to work hard and fast in order to win. Such a thing as a waiting game is impossible. In case there is no fall inside of 9 minutes three judges decide upon which man had the advantage and he wins the bout.

The matter of bringing the annual freshmen-sophomore contest under the jurisdiction of the club and have them wrestle a seven man team under the above rules was discussed. Since this is a matter for the two upper classes to decide, no action was taken by the club.

The college quartet, accompanied by Prof. J. H. Frizzell as reader. gave a concert in Butler, Pa., Monday night.

Dr. Wadsworth spoke on "The Education of the Engineer" at the banquet of the Engineers Society of W. U. P. held on Feb. 15th at the Hotel Schenley. Pittsburgh.
