Resolutions.

Whereas, God, in his infinite wisdom, has seen fit to take from us our beloved classmate, Roy Evans Geider, who, while with us, proved to be a loyal and devoted friend; be it

Resolved, That we, the class of 1910, while bowing to the Divine Will, do hereby express our sorrow at the loss of one of our members; and be it

Resolved, That we extend to his family our sincere sympathy in their great bereavement; and be it further

Resolved, That a copy of these resolutions be published in the State Collegian and in the 1910 La Vie.

Committee.

Professor Stoek's Lecture.

For more than an hour last Friday evening Prof. H. H. Stoek, of Scranton, editor of Mines and Minerals and a former instructor in the College, held the attention of an audience on the topic "Some Problems in Coal Mining." Prof. Stoek exhibited a fine lot of stereopticon views which showed the various methods of coal production. He refuted the frequently advanced idea of the imminent exhaustion of the world's coal supply, and showed the location of the fields from which comes most of the coal supply of this country. In closing he spoke briefly of the Monongah disaster.

It is rumored that work will be begun soon on some of the walks to be laid out under the new campus plans. Among the first to be constructed will be that extending from the Beta Theta Pi house to a point near the Library.
