

at Connellsville in February. The retiring President and the President-elect were both present at the Presidents' conference held at Carlisle, Pa., in April.

SOCIAL

The annual reception to new students on the Friday after college opened was by all means the best ever given. The attendance was over a thousand, and an excellent program was successfully carried out. Other social events are rendered practically impossible by the meagre accommodations that the Association has at its disposal.

The entertainment course proved the most successful in the history of the Association, both as to the financial result and as to the quality of the entertainment and the reception accorded to them. The course planned for next year is the most costly ever attempted here, and should be the most successful.

No attempt has been made to maintain a game room. To endeavor to make one small room serve as a game room for eleven hundred students is just a trifle impracticable.

EQUIPMENT

Library - All the books of the Association that are of general interest have been placed in the college library, on account of the lack of proper shelf room in the Association's quarters. The chief additions have been along the line of missions.

Records—Careful attention has been given to this feature of the work, and all records are now practically complete.

Rooms—The religious meetings of the Association have been held in Room 529, Main Building, which has proved large enough for the purpose on almost all occasions. This room could not be used, however, until November. The Association is practically compelled to share this room with the Cadet

The MEDICO-CHIRURGICAL COLLEGE of Philadelphia

Department of Medicine Carefully graded course of four sessions of eight months each. Thoroughly practical instruction; Free Quizzes; Limited Warding. Largest and finest clinical amphitheatre in the world.

Department of Dentistry Offers superior advantages to students. Abundance of material for practical work. College clinics present splendid opportunities for practice of general and oral surgery. Quizzing conducted by the Professors free of charge.

Departments of Pharmacy and Pharmaceutic Chemistry are also integral parts of the institution. All students accorded the same college privileges. Address the Dean of the department in which you are interested for an illustrated catalogue, describing courses in full and containing information as to fees, etc.

Band, and feels that it should have a room exclusively for its own use.

In conclusion, it can only be said that the imperative need is for an Association building. In this regard, State is already far behind colleges of even a much lesser standing and the fact that there is no place in the entire college where men can gather socially save in the village pool rooms, should stir State men to action in the matter of securing a suitable building for the Association, which would also be the social headquarters of the students. Other buildings are needed, but what can be more important for the upbuilding of true college spirit and life, and the turning out of true men than such a building as we have suggested?
